Sold Another Buick

Dr. Holton, of this city, buys a BUICK after looking at all other makes of automobiles. He spent a week in Cincinnati and returned and bought a BUICK from the Richmond Auto Co. After using the car for several days he says the BUICK is the car for him and anyone else who wants a real automobile

Richmond Auto Co.

New Firm.

Elsewhere in this issue of the Climax will be found the professional notice of a new partnership formed in this city—that of Boggs & Forbes, who have opened up an office in the Bennett building, over Rice & Arnold's store, for the purpose of doing all classes of civil engineering and surveying and architectural designing. These gentlemen solicit the work in their lines not only in this county, but that of adjoining counties and any part of Eastern Kentucky, and are thoroughly competent to handle any proposition that may be presented to them in their line.

Joe S. Boggs, a fellow to a man, has been a practicing engineer and surveyor in our community for several years and needs no commendation to the people of our community and adjoining counties.

H. B. de Forbes, who is the son-in-law of Wilson Tate, is a technical graduate of Yale University, combined with 15 years' practical experience in the designing and construction of all classes of engineering and architectural work, and has been a valued employee of some of the largest construction companies in this country, having for several years been with the Snares & Triest Co., of New York City, as engineer and superintendent on large contracts in the East, and is thoroughly qualified to handle anything in the building line that may be given him.

Give them your business and it will be handled in a high-class manner.

Indigestion and Constipation

"About five years ago I began taking Chamberlain's Tablets after suffering from indigestion and constipation for years without finding anything to relieve me. Chamberlain's Tablets helped me at once and by using them for several weeks I was cured of the complaint," writes Mrs. Mary E. McMullen, Phelps, N. Y. For sale by all dealers. jun.

What We Owe Edison.

Assuming the population of the United States to be 100,000,000, one man out of every forty owes his means of livelihood and usefulness in some degree to Edison.

He Won His Bet.

A big, prosperous business man could be seen seated at a well spread table in a restaurant, as two wags passed by. One of the wags smiled and remarked to his companion:

"I'll bet you a fine dinner that I'll walk into that restaurant, drink that man's cup of coffee and sample his juicy steak and have him thank me for it."

"Done!" exclaimed his companion, "I'll stand off and see the fun!"

Quietly the wag entered the restaurant, looked about critically and after a sedate pause stepped beside the heavy business man, who had just tucked his napkin under his chin. The wag reached forward quite gravely, picked up the cup of coffee and drank it. As the business man swung about to say something explosive the wag held up his hand and remarked under his breath:

"Don't say a word, I'm one of the inspectors acting under orders from the Health Department. If I had come in here and ordered myself a cup of coffee, the proprietor would have seen to it that I received an excellent one. What I wished was to get a taste of what they are serving their customers regularly."

He drank the contents of the cup and continued:

"This is most excellent coffee, I am glad to say."

The fat man beamed upon the wag and remarked:

"It is splendid work that the Board of Health is doing, and I congratulate you on your quiet way of learning what the restaurants are serving. Taste anything you like that I've ordered."

The wag took a bite of the steak, bowed gravely and walked out to eat the dinner he had won.

Staggering Figures.

Have you stopped to think since reading the crop report just exactly what 900,000,000 bushels of wheat means?

That's the estimated yield of the United States wheat crop this year. Nine hundred million bushels! That is almost half the world's wheat crop, it is said, and is 137,000,000 bushels more than was ever grown in this country in any previous year.

Positively staggering are these figures. One might realize after careful thought what 100 or 1,000 or even, by stretching one's imagination, what one million bushels of wheat might look like—but try to imagine nine hundred million bushels stacked in a heap! It's impossible! Far beyond the comprehension of anyone.

Nine hundred million bushels means nine bushels of wheat for every man, woman and child in the whole United States, our population being approximately 100,000,000. And nine bushels of wheat would sustain one person for a year easily, and perhaps two. We could live until next year after the harvest on our wheat crop alone.

Nine hundred million bushels! That means 200,000,000 barrels of flour, figuring on the usual basis of four and one-half bushels to the barrel. Two barrels of flour for everybody in the country.

Nine hundred million! Every good and careful baker figures on approximately 300 loaves of bread from a barrel of flour. Now close your eyes and imagine the pile of bread! From 200,000,000 barrels of flour there could be made 60,000,000,000 loaves of bread—sixty billion loaves!

If it were not for the wheat crop of the United States the world, or a great part of it, would starve. Much of this wheat is exported. Other wheatless countries must have their bread as well as we.

Of course there won't be sixty billion loaves of bread from the crop, for much of the grain is used in other ways. Lots of it goes into breakfast foods, some is made into whisky and a great deal will be saved for seed. Besides all the flour, white, graham and whole wheat, there will be much bran for the use of our four-footed friends.

But for fear you lose sight of that 900,000,000 bushels, think of the weight of that enormous crop! If a bushel of wheat weighs approximately 60 pounds, the entire production of the United States will weigh 54,000,000,000 pounds!

Only One Entirely Satisfactory.

"I have tried various colic and diarrhoea remedies, but the only one that has given me entire satisfaction and cured me when I was afflicted is Chamberlain's Colic, Cholera and Diarrhoea Remedy. I recommend it to my friends at all times," writes S. N. Galloway, of Stewart, S. C. For sale by all dealers. jun.

Will Some One Please Explain.

Mr. A. T. Parker, brother of the late Judge Watts Parker and trustee of the jury fund of the Fayette circuit court, is looking for some one to explain a phenomenon which happened at his residence one night last week during an electrical storm. He says that when a flash of lightning came during the storm the electric light in his bedroom was lighted.

Insurance Company For Lexington.

Lexington will probably come to the rescue of the citizens of the state, as well as of other states by the organization of a new fire insurance company. It is proposed that a company be started with a capital stock of \$500,000 and a surplus of equal amount. At this time about \$100,000 has been subscribed. Among the list of local capitalists appear the names of James B. Haggins, Clarence LeBus, \$20,000 and other subscribers like C. H. Berryman, E. R. Blackburn, Desha Breckinridge, George A. Bain and W. L. Marshall, have succeeded in raising about \$100,000. There is hardly a doubt but that the company will succeed in the project. They expect to be ready for business within thirty days.

For An Impaired Appetite.

To improve the appetite and strengthen the digestion try a few doses of Chamberlain's Tablets. Mr. J. H. Seitz, of Detroit, Mich., says: "They restored my appetite when impaired, relieved me of a bloated feeling and caused a pleasant and satisfactory movement of the bowels." For sale by all dealers. jun

When you know that 700,000 women use Hoosier Kitchen Cabinets three times every day, doesn't it suggest to you that you need this drudgery-saver in YOUR kitchen?

Figure it out to yourself this way: Would they have bought these cabinets without convincing themselves that they SAVE MILES OF STEPS and hours of time? Would so many have bought them at all if users hadn't told others and thus influenced their friends to buy them.

Since this means that more Hoosier Cabinets have been sold than all other 128 makes of cabinets combined, isn't it proof enough that the Hoosier is the best cabinet on the market?

When you see how the Hoosier groups four cupboards around a large metal table and places 100 articles at your fingers' ends so you can sit down and work AND REST while working—you'll want one of these "White Beauties."

J. S. Stanifer Makes Great Business Move.

In today's issue of the Climax appears the ad. of J. S. Stanifer's "Quick Action Sale," which came as a surprise, as the public thought he would not hold a sale until late summer and then sell his unseasonable goods. But he has come to the conclusion that he would give his many friends and customers a cut on his new, seasonable merchandise, which will be a treat to them.

Mr. Stanifer has the best-stocked establishment of its kind in this section, handling a very high grade line of men's and boys' clothing, shoes, furnishings and also carries the most complete line of the very best of ladies' shoes and of the latest styles. His store has recently been remodeled and a complete shoe department is to be seen and a comfortable space for those who wish to be waited on in the proper way.

The clothing department for men and boys is separate and in another section of the building. Fans have been installed and they will keep the building cool and pleasant to do your shopping in, without suffering with the heat of these extremely hot days.

Mr. Stanifer is our most successful merchant and has been in business in Richmond for many years and is well-known locally and throughout business circles. Numerous clerks have been engaged and are arranging the stock so it can be handled with rapid dispatch on opening day.

The store will be closed Tuesday and Wednesday, June 16 and 17 to mark down and arrange the stock. The sale is set for 9 a. m., Thursday, June 18th and will continue until July 4th—15 actual sale days are included in these dates.

Note circulars carefully and you will find a saving by attending one of these sale days.

So long! Good-bye! I'll see you at the QUICK ACTION SALE! 2t

Land, Stock, Crop

Continued from Section 2.

About 4,000 cattle are killed annually in the United States by lightning.

A few miles changed hands at Paris last court day and at low prices.

J. B. Foster, of Lincoln county, sold 42 head of 1,170-pound cattle recently at \$8.20.

A large number of lambs have been engaged in Garrard county from 7 to 73-4c.

W. H. Whaley, Jr., of Paris, bought several bunches of nice feeding cattle at 7 cts.

Vassar, 2:07, who recently died at Dover, Maine, was bred by B. H. Neale, of Richmond.

Mules sold slow at Winchester court day, a few pairs exchanging hands at \$400 to \$500.

R. K. Tarkington, of Danville, sold 33 225 pound hogs to S. P. McDowell at 7.50 per cwt.

The cattle market is strong at Carlisle, where dealers are offering 6 3-4 cts for yearlings for October delivery.

What is the QUICK ACTION SALE? At Stanifer's Store, of course.

Cattle are higher in Fleming county this year than for years past. Good weanling steer calves have been selling as high as \$39, and extra good yearlings for above \$40.

Sudduth Brothers, of Winchester, sold 60 1,400-pound extra cattle to M. A. Prewitt, of Montgomery county, for 73-4 cts. Allen Ecton, of Winchester, sold to R. S. Oliver 17 heifers at 7c.

Brown, Lawson & Co., of Garrard, bought in Lincoln county over 100 hogs, for most of which they paid 8c. One lot of 18 weighed 300 pounds sold for as low as 7 1-2c.

The proceeds from Warren county's strawberry crop this year will not exceed \$60,000, which is about half the usual yearly amount. The drought played havoc with this year's crop.

Reynolds Letton, of Paris, sold to J. K. Northcutt, of Cynthiana, 2 Shorthorn bull calves, 1 yearling bull and a yearling heifer for \$335. All but one of them were out Bates cows and were shipped for breeding purposes.

So long! Good-bye! I'll see you at the QUICK ACTION SALE! 2t

New Paper.

A new paper is being launched at Lawrenceburg. Press reports say a company of about forty business men of that city are behind the enterprise. Mr. Arthur W. Timoney of Danville, a graduate of Central University will occupy the editorial chair. He has had several years experience in newspaper work and achieved an enviable reputation in that line. The paper will be called the Lawrenceburg Times and will be Democratic in politics. An up-to-date plant has been contracted for and will be installed as soon as a suitable room can be secured. Until that time the paper will be printed either in Lexington or Danville. The Climax welcomes the advent of Mr. Timoney into the fold and extends a cordial greeting to the new enterprise. Here's wishing success four fold to the Lawrenceburg Times and to its editor, Mr. Timoney.

On the Verge of Ruin Came Back to Success.

A Business Story in Which A Cincinnati Man and the Neal Institute Figures.

One man in Cincinnati with credit impaired and health wrecked went to the Neal Institute over three years ago. He was a slave of drink—just couldn't stop. The Neal Treatment was recommended as a "last resort." He took, as he expressed it, "the chance" and during his three days in the Neal Institute declares that he saw himself as he really was, a man surrendering everything worth while in life for drink. The Neal Treatment enabled him to quickly get rid of his craving for liquor. He went back to business with brain clear and he began to rebuild shattered fortune. Today he is one of the most successful business men in his line in the whole country.

The man who drinks is playing with the weapons of destruction. The Catholic Temperance Advocate which is delivering sledge-hammer blows against drink says, "The most moderate habitual drinker will find that he spends on the average of 25c a day or \$100 per

year for drink which if it were put into a building and loan association, would become \$1900 in ten years. What a waste!" People who think know that to take the Neal Treatment is the biggest and best investment any drinker can make. The drink habit is the world's greatest waste of money, health and opportunity. Drink impoverishes financially, morally and intellectually. The best thing to do with an appetite for drink is to let the Neal Treatment at it. Three days of the harmless, vegetable remedy taken internally and with no dangerous hypodermic injections will change desire for drink into intense dislike for everything alcoholic.

You are invited to investigate or ask your physician to do so. For illustrated booklet write the Neal Institute, 601 Maple Ave., Cincinnati, O. Telephone Avon 4029. Other Ohio Neal Institutes at Columbus and Cleveland.

Kentuckian Escapes Operation By Using Mayr Stomach Remedy.

Mr. Burnett Says Wonderful Treatment Saved His Life With Few Doses.

Horace Burnett of Somerset, Ky., was a sufferer from stomach disorders for a long time. His condition became highly serious and he feared an operation.

He took Mayr's Wonderful Stomach Remedy and got swift results. In a letter telling his experience he wrote: "Your treatment has certainly helped me wonderfully. I took my fifth dose last night and it brought good results. I have one more dose to take and I think I will be well. Your tonic is wonderful. I can eat anything now that I want to. I can never get through thanking you for your medicine, for I know it saved my life, for I have tried all the doctors and they said I would have to be operated on."

Such letters come from all parts of the country. This remedy is known everywhere for its remarkable results.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accumulations and is a most powerful purgative. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives. Because of the remarkable success of this remedy there are many imitations, so be cautious. Be sure it's MAYR'S. Go to Perry's Drug Store and ask about the wonderful results it has been accomplishing in cases they know about—or send to Geo. H. Mayr, Mfg. Chemist, 154-56 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful results.

Honor for Richmond Minister.

The General Conference of the M. E. Church, South at its recent session in Oklahoma City, appointed a commission to prepare the business forms and blanks for the reports of all the pastors and Conferences of the Church for use during the next four years. Rev. B. C. Horton, pastor of our local Methodist Church was placed at the head of that commission which meets in Nashville, Tenn., June 23rd, and will be in session about three days.

Don't forget JNO. R. GIBSON'S sale.

Hon. J. Tevis Cobb for Congress, If

If his health would permit, the Democrats of Madison would have long ago have called on Hon. J. Tevis Cobb to represent the Eighth Congressional District in Congress. A man of strong mental power, an able and successful lawyer, equipped with a splendid education, thoroughly alive to the needs and best interest of the county, district, state and nation, actuated at all times by high principles, Mr. Cobb would be an honor to his district and a credit to his friends and to himself. If his health would permit, that little word of two letters "If" precludes the possibility of what might have been, what would certainly have taken place. Mr. Cobb has been, as is well known, in poor health for several years and while much improved at this time, he is not able to make the race and it would be unfair to ask him to do so. Even though the nomination and election were tendered him without a contest the duties of the office would be a tax on him which his physical condition could not stand. We most sincerely wish it were otherwise.

We hate to do it, but we must—at the QUICK ACTION SALE! 2t

Why Is This?

The U. S. Supreme Court has just rendered a decision in the case of the Commonwealth of Kentucky against the International Harvester Co.

This company had been indicted in these judicial districts of our State and judgment was rendered in each case against the company and from these decisions an appeal was taken by the Harvester Company to the Court of Appeals and by this, our highest court, the judgment of the circuit court was sustained, and from this decision of our Court of Appeals, the Harvester Company took an appeal to the U. S. Supreme Court.

The judgment of the U. S. Supreme Court reversed the judgments of our Kentucky courts and gave this as a reason for so doing: that the act of our Legislature under which the Harvester Co. was indicted, was unconstitutional. If this judgment of the U. S. Supreme Court is sound, how is it that our three circuit judges and our Court of Appeals did not know this? Can it be that three of our circuit judges are incompetent—unable to see and declare an act of our Legislature unconstitutional?

Is our Court of Appeals so weak in natural and acquired ability as to be unable to tell when an act of our Legislature is in violation of our own Constitution?

If three of our circuit judges and our Court of Appeals did not know the law in the Harvester cases, what assurance has the people that our highest court will know the law, in any case, involving the constitutionality of any act of our Legislature?

If the opinion rendered by our Court of Appeals was laid down by the side of the opinion rendered by the U. S. Supreme Court, I venture the assertion that, for close, clear and logical reasoning, it would compare well with the opinion rendered by the U. S. Court.

The judgment of the U. S. Court of Appeals must stand, (two of the judges dissenting), but here is the danger: Our people are losing confidence in our courts and this conflict of opinion in this case will tend to increase that want of respect for and confidence in the ability

Big Paper This Week.

Today's Climax has 12 pages instead of 8 pages, as usual. In order to give our readers the usual amount of reading matter and local news, we had to get out four pages extra, and even then we are compelled to omit some good items, as often happens. Twelve pages were necessary. Our advertisers are quick to recognize a good proposition. They appreciate the big circulation and the class of readers the Climax has and they know the surest way of telling the people about the bargains they are offering is through this paper, where it will get into every nook and corner of this county, as well as of neighboring counties. John R. Gibson's sale is still going on, but will close Saturday night, June 18, and close Saturday July 4th. E. V. Elder's sale will begin on Friday, July 19 and close Saturday, July 4th. W. D. Oldham & Co.'s sale will begin Saturday, June 20 and close Saturday, July 4th. You know the high character of all these houses. They do just what their advertisements in this paper say. Note the dates. Watch the Climax next week. There will be some new ads. It will pay you to read all of them.

Mr. Ivan McDougale is at home from Clark College, Worcester, Mass., where he has been the past session taking a special course. He will remain at his home this summer and return to Clark College in September. His father, Prof. E. C. McBoyle also is taking a special course at Clark College and will receive his degree Doctor of Philosophy, and will be home in a few days.

Mrs. George Johnson was in Richmond this week to attend the commencement exercises of State Normal College, of which her daughter, is one of the graduates. Miss Anna Gordon and Miss Mary Gray, two bright Mercer county girls who are members of the large graduating class at State Normal College, Richmond will return home tomorrow.—Harrodsburg Herald.

President Crabbe's Reception.

One of the most charming events of Commencement week at Eastern Normal School was the President's annual reception and promenade concert, given on the campus Tuesday evening. The colors of the senior class, green and white, readily lent themselves to an artistic decorative scheme. The circular lawn enclosed by the driveway from Lancaster avenue was surrounded with rustic chairs, where the guests were served from a charming table with feathery smoketree blossoms, surrounded by a tall and graceful basket of Dorothy Perkins' roses, and lighted with tapers. From here the facade of Ruric Nevel Roark Hall, where the guests were received, was particularly effective, with its massive Ionic columns flanked deep with palms, evergreens, snowball blossoms and foliage. Iced drinks were served from a dainty little booth covered with dense wisterias, and the orchestra was screened from view by a hedge of green boughs. The entire scene was graceful and effective in the extreme. There were many guests from the city and county, and the host and hostess especially appreciated the presence of an unusually large number of parents of graduates who were here for Commencement week to witness the conferring of diplomas upon their respective sons or daughters.

More Truth Than Poetry.

A Classic going the rounds of the press is as follows: "A hen stood on the garden lot, whence all, but her had fled, and didn't leave a planted spot in the earthen bed; with vim she worked both feet and legs, and the gardener says he bets she was trying to find the kinds of eggs on which the onion sets."

Most people pay full price. Why not pay less at the QUICK ACTION SALE?

New Automobile Law.

The automobile law enacted by the last Legislature became effective yesterday, June 16th. Motor vehicles of all kinds are included. We publish for the benefit of our readers in this issue of the Climax a synopsis of it. We have not looked carefully into the provisions of the law and are not prepared to express an opinion as to whether or not it is a good law. Certain we are that some legislation is needed. Few drivers of automobiles pay any attention to speed limit and have come to think in many cases that they own the pikes, or surely have the right of way and a perfect right to run over your dog, your cow or anything else that comes in their way. Richmond has been particularly fortunate in few or, in fact, practically no serious accidents, so the law is perhaps not as much needed here as in many other places, yet it may save life and prevent trouble in other ways if owners of automobiles and chauffeurs will familiarize themselves with the law and carefully observe it.

One can scarcely pick up a daily paper without being confronted with a headline—"Killed in an Automobile Accident." A careful adherence to the law and a strict enforcement of it will at least serve to improve conditions.

The law forbids the driving of any vehicle at a speed greater than is "reasonable and proper." The following are limits placed as "reasonable and proper," any greater being prima facie evidence of unreasonable and improper speed. In closely built-up sections of incorporated cities, ten miles an hour; in residential districts, 15 miles an hour; in high ways outside of the business and residence sections, 20 miles an hour. On a curve, corner or crossing, where the operator's view is obstructed, eight miles an hour is the limit.

A driver must come to a full stop in passing a frightened horse or near a street car taking on or discharging its passengers. Any city may, however, pass traffic laws that place the speed limit lower than the statute.

The framers of the law were generous in providing fines and equally unselfish in finding acts which can be punished.

Some of the law infractions and their penalties are:

Fine of \$10 for fictitious chauffeur's badge.

Fine of \$15 for employer of unlicensed chauffeur.

Fine of \$10 for unlicensed chauffeur.

Fine of \$15 to \$50 for intoxicated operator of motor vehicle.

Fines of \$10 to \$100 for use of fictitious automobile license.

Fine of \$15 to \$100 for a person under 16 who drives a car without parent or guardian.

Cancellation of vehicle license for owner who fails to report discharge of chauffeur on account of drunkenness.

Two to five years in the penitentiary for taking machine without consent of owner.

Forfeiture of chauffeur's license on conviction of drunkenness.

Fine of \$10 to \$50 for violation of any section not specifically enumerated.

This may be augmented by 5 to 30 days in jail.

The new license prices are as follows:

For vehicle and 25 horse power or less, \$5; between 25 and 50 \$11 and above 50 horse power, \$20. A motorcycle registration fee is \$5.

The examination for chauffeur's to establish their right to license are to be held as follows:

Louisville, first Monday in December; Lexington, first Monday in February; Maysville, first Monday in April; Bowling Green, first Monday in July; Paducah, first Monday in September; Covington, first Monday in May.

Until then the Commissioner of Motor Vehicles at Frankfort will have the right to issue licenses.

The Postal System.
Postmaster General Burleson gave out a statement a few days ago which conveys some idea of the magnitude of the operations of the Post-office Department.
In a period of fourteen months, the Postmaster General says, he has appointed 23,317 postmasters, of whom 5,171 were of presidential grade. "Yet this is not nearly one half of the great army of postmasters." There are 57,540 post-offices in the United States. In other words, the "army of postmasters" is as almost as large as the regular army on a peace basis.
No other country has so many postmasters. No other country approaches the United States in the extent of its postal business. The revenue derived from the department last year amounted to \$206,019,525, while that of the British department is estimated for the present year at only \$105,000,000. France gets but \$80,000,000 from her post-offices, telegraphs and telephones, and Germany less than \$200,000,000 from the same three services.
Approximately eighteen billion pieces of matter are carried through the United States mails every year. This is more than any other two nations in the world handle in the same length of time. Considering the enormous number of packages carried it is not at all remarkable that a few million letters go astray every year. It must be said to the credit of the Post-office Department that most of these letters fail of delivery for reasons which in no wise reflect upon the efficiency of the postal system. In fact the postmasters and their fellow officials accomplish wonders every day in the delivery of matter that is improperly or insufficiently addressed.
Everybody criticizes the mail service now and then, including persons who never receive a dozen pieces of mail matter in their lives. The system has its faults, but it is a tremendously big affair and it is getting bigger all the time. The postal service follows the flag--and it reaches many places where the flag is seldom seen. It is not perfect but it is the biggest and best of its kind.

When The Wind Is Adverse.
It is not difficult to travel when you are going with the wind. Friends are plentiful, when business is profitable, when fortune is smiling, then life is but a pleasant dream. It is when the wind is against one that the tug of battle begins. It takes a brave heart to face the storm. One who lacks nerve, courage, confidence, is the one who is going to go down. Fighting bravely against the storm is the thing that develops character and strength. Storms of life are not to be dreaded. When they have died down one may not have made much of an advance. Confidence in one's ability, however, has been developed. Some rough seas are of benefit both in character building and in business building. The thing to be dreaded is the calm. Stagnation is death. Both in the business world and in the moral, this state of things is to be avoided.--Kentucky Oddfellow.

DEATHS
Three weeks ago we noted the death of Dr. Wm. Crutcher at his home in Pine Bluff, Ark. We are now called upon to record the death of a younger brother, Mr. Harry Crutcher, 35 years of age, a druggist of Fresno, Cal. Death came to him suddenly without warning, as a thief in the night. Mr. Crutcher was a son of the late Eld. S. W. Crutcher and nephew of Mr. Wm. Crutcher, both well known in this county, the former a minister of the Christian Church who died in Missouri several years ago, the latter a man of prominence and influence in this his home county. Mr. Crutcher leaves two children, his wife having died about three months since. It may be interesting to some of our older readers to know that this young man's mother was a daughter of Dr. Lewis L. Pinkerton one of the leading ministers of the Christian Church sixty years and more ago.

Mr. Ivan Wheeler, 21 years of age, died at the home of his parents, Mr. and Mrs. William N. Wheeler, on Bogg's Lane, Wednesday, June 10. Mr. Wheeler had been an invalid the greater part of his life and his taking away, while it brought sorrow to the hearts of his parents, was a blessing not only to the family but to the young man himself. God knows best and "He doeth all things well." After funeral services Thursday at the family home, conducted by Rev. Mr. Peel, of Nicholasville, his remains were laid to rest in the Richmond cemetery.

County Road Supervisor, June Baxter, and Deputy Sheriff, John Simmons were in a skiff at Valley View and venturing too close to the lock were drawn by suction into the lock. Clarence Woods Loses.
Ex-Mayor C. E. Woods, who was a candidate for the Legislature from Lake county, Florida, where he has been located about two years, was defeated. There were three candidates, two out of the three to be elected. Mayor Woods came out third. His friends claim that the whisky element did the work for him. He takes his defeat good-naturedly, and at once invited about a dozen other defeated candidates to take dinner with him at a fashionable cafe.

Clarence, if he thought you needed condolence the Climax would in sincerity offer it. You don't need it. Know that you were in the right and go ahead. Remember the words of that old Kentucky statesman, Henry Clay: "I would rather be right than be president." He is now at Crab Orchard Springs recuperating his lost energy and taking a rest for a few weeks. His friends here, and he has many of them, would be glad to have him come on to Richmond for a visit.

One Accident Follows Another.
Mr. Charley Todd, formerly of this county, now of Paint Lick neighborhood, if we are not mistaken, in Garrard county, had the misfortune of having one leg broken in a runaway scrape with a horse in March. He was laid up for eleven weeks and was just getting around on crutches when two weeks ago he fell and broke same leg in precisely the same place.

Mrs. Millie Broadbuss, wife of Mr. T. O. Broadbuss, died at her home on Broadway, Friday morning, June 12, in the 47th year of her age. She was ill a little more than three months. Acute Bright's disease was the cause of her death. She was the daughter of Mr. and Mrs. Rufus Moberly. Her father died some years ago. Her mother is still living. When but a girl she made a profession of her faith in Christ and united with the Christian church and has all her life been a consistent christian woman. Besides her mother and husband she leaves three children, two daughters, fifteen and seventeen years of age, and son of eleven, and four brothers, John, of Estill county, and R. Graduation Exercises At Eastern Normal.
When it is considered that the standard has been greatly raised by the President and Board of Regents of the State Normal School, requiring at least a year's work more than prevailed formerly, it is gratifying to note that the class which graduated last Friday morning was the greatest in the history of the institution, and in some respects the strongest.

At the exercises in the morning one was impressed by the earnestness with which the fifty-nine graduates received the words of counsel and warning of the speaker, Dr. Farquhar, who delivered the commencement address. This oration was unusually fine, and gave all who heard it much upon which to study. Dr. Farquhar deplored the modern tendency of the student toward ultra-radicalism in questions affecting the religious life. Although he endorsed broadness of vision and a liberal sympathy, he most earnestly urged those who were to engage in the education of the young to present themselves as living examples of firm devotion to religious principles.

His presentation of the value of the modern drama, especially of that type which deals with the motives of men, was well received, and showed a profound study of the subject on the part of the speaker.

After the address President Crabbe called upon Professor Koob, the Director of Music, to present certificates to seven young ladies who completed a course as supervisors in Public School Music, the first in the history of the school to receive certificates in a special subject. These awards were made to Misses Nelle Johnston, Mary A. Hill, Mattie C. Lipps, Emma Henlepp, Fannie Brown, Fernie Heverly and Fairy Ballard.

Prof. Grinstead then presented the diplomas to the following graduates: Paris B. Akin, Mary Jane Ammerman, Leonard H. Ballard, Anna Louise Bertram, Daphne Hickman Bowman, Fannie May Brown, Leander Cox Caldwell, Zula Elizabeth Calico, J. W. Chrisman, Nellie Coons, L. A. Clark, Lula McKee Cornelison, Perry Davidson, Evelyn Dempsey, Willie Mae Deatherage, Vivian May Dodsworth, Anna M. Donahue, Mary Doty, Beulah Newman Early, Lena Agnes Early, Charles M. Gilmore, Anna Elizabeth Gordon, Mary Frances Gray, Isaac Hacker, Ella Maude Harmon, Lula Hale, Maude Frances Hayden, Emma Theresa Henlepp, Elizabeth F. Horine, Ollie Mae Houchins, Rowena Johnson, Herschel R. Kirk, Mattie Louise Lipps, Margaretta Martin, Stella Mae McWhorter, Nancy Bourne Myers, Nancy Kathleen Plummer, Florence Ethel Price, Hobart V. Price, Odessa Blaine Price, Edna Mae Rankin, Marcus C. Redwine, Linnie M. Rice, Mary E. Ross, Eva Edith Sams, Hallie May Seville, Ruth Scrivner, Floris Seitz, Thomas W. In Memoriam.
Mrs. Rosie Gertrude Kidd, wife of Norman Kidd, died at her home on Linden Avenue, this city, Monday, June 8. Trouble over domestic affairs had greatly annoyed her, unbalancing her mind, and in a fit of despondency she took carbolic acid with fatal result. Her husband, who was greatly devoted to her, was away from home at the time and her death was a severe shock to him. Mrs. Kidd was 24 years of age. She was a daughter of Hardin and Talitha Coyle, her father having died two years ago. Her mother is still living. Besides her mother and husband, she leaves five sisters and one brother to mourn her loss. She had no children. Mrs. Kidd was a member of the Baptist church, spent a great deal of her time in reading her Bible and was greatly beloved, not only by her devoted husband, but by a large circle of friends. Only those who knew her well, knew her good qualities and devotion to her family and friends. Her sisters, her brother, her mother, her husband will miss her, but we know that she has gone from this world of sorrow to the loving arms of her Savior, in whom she trusted, where there is no sorrow and the weary are at rest. After funeral services by Rev. Owen Young, her body was laid to rest in Richmond Cemetery, there to await the call on resurrection morn.

In loving remembrance, her sisters,
LILLIAN YOUNG,
OPAL LEE.

TEMPERANCE TOPICS.

"Ninety per cent. of the country's crime is caused by drunkenness and 99 per cent. of the country's drunkenness is caused by the practice of treating."—Judge Charles Goodnow, of Chicago.

The "wrong bottle" cost 115 lives in Chicago last year, but there is no record kept of how many lives the "right bottle" cost.

Being "dry" does not put a county in the pauper list, or being "wet" does not put it in the revenue producing list, even if the Model License League does attempt to make that impression.

All sale of intoxicating liquor on railroad trains in Missouri has been abolished by order of the railroad officials.

"It is a short-sighted statesmanship that would permit \$2,000,000,000 to be worse than wasted each year on the production of misery, vice and shame, in order that this government might obtain a revenue of \$230,000,000."—U. S. Senator Morris Sheppard, before the Judiciary Committee, Washington, April 1914.

The Court of Appeals has upheld the local option election held in Palaski in September. The county will now be in the "dry" list. The election went dry by a big vote, but the usual contest resulted. One by one the Kentucky towns are joining the dry list.

"Our customers are your prospective patients," was the plea made in a letter from the Kentucky Distillers' Distributing Co., to the Keeley Cure, at Dwight, Illinois.

Secretary Daniels has declared that in his recent order abolishing the wine mess in the navy, he had efficiency in mind chiefly. "The modern navy is a navy of machinery, and alcohol and machinery do not go together."

A million-dollar brewery in West Virginia, that must go out of business as such, July 1, is being turned into a great packing house.

Prof. Lang, of Vienna, says: "Parsons who are saturated with alcohol poison their children in the germ. It anyone doubts this, let him come with me to Kierling. There in the hospitals you will see children who will make your heart ache: deafness, blindness, deformities, nervous convulsions, feeble-mindedness, idiocy, 50 per cent. of which is due to parental alcoholism."

During the 33 years of prohibition in Kansas, the illiteracy of her people has been reduced from 49 to 2 per cent.

In the 105 counties of that State, 37 have no insane, 51 have no feeble-minded, 96 have no inebriates. There is on only one pauper to every 3,000 population, and there are 48 county poor farms that have no inmates.

Gov. Hodges, of that State, recently declared "Kansas leads in the fight against the liquor traffic, and will be the first State to complete in the Amendment for National Prohibition. As executive or our great commonwealth, I hope to have the happy privilege accorded me of calling our Legislature together for such a lumine purpose, during my tenure of office. Such an official act will meet the approval of 80 per cent. of the citizens of Kansas. It will be the most popular legislative action ever enacted, with the exception of the Act of '79, which made Kansas one of the first States to prohibit the manufacture and sale of alcoholic beverages within its limits."

HOW CHILDREN GROW

Children grow by nourishment—not overloaded stomachs or rich foods but qualities that are readily converted into life-sustaining blood, too often their digestive powers cannot procure these qualities from ordinary foods which results in weakness, dullness and sickness. If your children are under-size, under-weight, catch cold easily, are languid, backward, pale or frail, give them Scott's Emulsion which is pure medicinal nourishment. It sharpens the appetite, builds healthy flesh, firm muscles and active brains. Scott's is growing-food for children. Refuse alcoholic substitutes.

Big Salaries.

A brother editor says: "It is not generally known that Christy Mathewson, the base ball player, receives a bigger hourly salary than either President Wilson or Secretary Bryan. Mathewson's hourly salary is \$186.50 for 80 hours during the baseball season. Johnson, another ball player, gets \$136.50 an hour, while President Wilson receives \$30 an hour and Gary, of Steel Trust fame, gets \$10 for every 60 minutes of time he puts in. Wilson puts in 2,501 hours, so do Gary, Bryan and Speaker Clark, the latter receiving \$1.80 an hour, while the writer of this article can barely make connection with the next meal."

Cures Stubborn, Itchy Skin Troubles.

"I could scratch myself to pieces" is often heard from sufferers of Eczema, Tetter, Itch and similar Skin Eruptions. Don't Scratch—Stop the Itching at once with Dr. Hobson's Eczema Ointment. Its first application starts healing; the Red, Rough, Scaly, Itching Skin is soothed by the Healing and Cooling Medicines. Mrs. C. A. Einsfeldt, Rock Island, Ill., after using Dr. Hobson's Eczema Ointment, writes: "This is the first time in nine years I have been free from the dreadful ailment." Farmers throughout the Burley belt are jubilant over the prospects for a good tobacco crop since the rains. The setting out of plants was greatly delayed by the drought.

In Kansas City, one of the largest markets in this country, 30,000 mules were sold last year at an average price of \$50. A team of show mules brought \$1,000 and a suckling colt sold for \$250.

From all reports and from what men like Cohen, Harbison, Doty and others say, another great horse is coming into the limelight—Kentucky's Ideal, by Bourbon King. He is said to be a wonder and the greatest 2-year-old seen in this State for years.

Some Jawbreakers.

Things Mexican now being in discussion, some one has discovered that the Mexican word for kiss is *retentamiquiziti*. But that is nothing, says Mr. Charles W. Donville-Pfe in his book on Guatemala, to what the Central American can do, for if you wish to call the boy who carries newspapers, you have but to murmur, "Amelaculitiquicatlaxahuite."

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like no other person altogether."

Cardui is purely vegetable and gentle acting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.
